

Description:

The Model 2600-600 Surge Panel is an optional accessory for the 2600 Series AEI System. The panel's industrial grade surge arresters provide the primary lightning/transient protection for system I/O lines.

The 2600-600 Surge Panel includes:

- two 50 Ohm coaxial surge protectors (Mfg Part #: 1965-35-A00) for RF outputs of MPRR
- four UTBs (Mfg Part #: UTB30SP) for wheel detector inputs
- one Three-Terminal-Arrester (Mfg Part #: 202068-003) for track circuit input
- one RJ11 Transector (Mfg Part #: 1101-740) for phone line
- panel mount copper ground plate with ground lug

General Specifications:

Dimensions	15.00"L x 4.00"W x 3.00"H
Weight	5.90 lbs
Temperature Spec. - Industrial	-40°C to +70°C
